

Prior Conservatories,

I would like to take this opportunity to thank you and your staff for the help you gave me on buying my conservatory. I felt that you were very helpful and professional also the quality of the overall product was excellent, you have given me the trust and confidence in buying from the internet. as I found it can be very daunting. But I should not have been concerned at all as everything was all there on the lorry and in perfect condition, Richard the driver was a brilliant help too!

The building plans that were supplied helped myself and my builder to get the base built without a problem, following this the frames and roof went up with no hassle at all. I was surprised to finish the assembly part in two days! Completing the the whole erection process in three weekends.

I will definitely be recommending you to anyone I know that may want a conservatory in the near future.

Thank you once again

Mary regards
Mrs Kelly.
